

The Great Lakes

There are five bodies of water along the northern border of the United States. They are known as the Great Lakes. They are called Lake Huron, Lake Ontario, Lake Michigan, Lake Erie, and Lake Superior. The Great Lakes hold about 6 quadrillion gallons of water! These lakes provide most of our country's fresh water supply.

Answer the questions.

1. Along which border of the United States are the Great Lakes?

2. How many gallons of water do the Great Lakes hold?

3. Find and circle the names of the five Great Lakes in the word search below.
