

# Number Line

You can use the number line to find the difference in a subtraction problem. Here, you are subtracting 6 from 14.

Start at 14. Jump back 6 spaces on the number line.

You will land on 8. This is the answer to the problem.

$$14 - 6 = 8$$

Use the number line to find the differences.

1.  $20 - 3 =$

6.  $12 - 8 =$

2.  $16 - 6 =$

7.  $20 - 7 =$

3.  $17 - 4 =$

8.  $19 - 5 =$

4.  $14 - 10 =$

9.  $18 - 2 =$

5.  $7 - 4 =$

10.  $15 - 6 =$
